TELEGRAPHIC

CANADIAN.

ONTARIO.

TO SUBSCRIBERS.

The proprietors of the MAIL desire to state that they have made arrangements with the publishers of the "North West Farmer" to club that journal and the Weekly MAIL for the low price of \$2.50 in advance per year. This is an offer which no doubt farmers will appreciate as it gives them the best agricultural paper in the country as well as the best weekly in Western Manitoba, at a subscription very little in advance of that of one of them.

The Brandon Weekly Mail

FRIDAY, APRIL 20, 1883

BRANDON BUDGET.

Mr. R. J. WALSH left yesterday for Moss Jaw.
Miss E. ELLIOTT returned from Winnipeg yesterday.
Mr. JONES of the Imperial Bank went west yesterday.
TEN passengers went out yesterday by the stage to Rapid City.
About fifty people, mostly families, stopped at Brandon yesterday.
Mr. G. McFARLANE will leave in a few days on a trip west as far as Calgary.
Mr. YANKOUNG of the C.P.R. is in town. He reports business booming out west.
Mr. LEE reports a booming business yesterday in the harness line. Moral: Advertisement in the MAIL.

The regular train west yesterday had a new immigrant coach attached, crowded with immigrants for the west.

Mr. J. C. KAVANAGH, our popular and efficient Postmaster was registered yesterday at the Peter House, Winnipeg.

About one hundred labourers went through to the end of the track yesterday, to work on Langdon & Sheppard's contract.

MERRITT & Co's elegant new sign was last evening completed by Lang's staff of artists and presented an elegant appearance.

Mr. J. M. Egan, the lightning general superintendent of the C.P.R. went east yesterday morning, on a special train.

ASSISTANT General Manager W. R. Baker went down yesterday on the official car, on his return from a trip to the end of the line.

The baggage-man on the train west from Winnipeg yesterday, while getting down a heavy trunk, slipped and severely sprained his ankle.

A new frame building is going up next to Munro & Warrick's hardware store in Howe Avenue. It will be used as an auction mart.

ALMA — whose other name is lost in oblivion, will appear tomorrow morning to answer to the charge of assault preferred by Councilor Gustin.

Mr. A. E. Phippen leaves today for the Riverdale farm, on which it is the intent of himself and partners to put in for this season's crop one hundred and fifty acres, which is all fall plowed and in condition for early seeding.

Mr. ALAN McFARLANE one of Winnipeg's merchant princes, with a party of friends arrived in the city yesterday and took in the surroundings. He leaves for home this afternoon.

Mr. D. SMITH left yesterday for Moss Jaw to take stock of the place and consider the advisability of establishing there a branch of his Brandon wholesale furniture emporium.

Mr. DAVIS is having a lot of Red River maple trees planted about his private residence, an example which might be followed by other citizens with a good effect on the appearance of the town.

A SPECIAL immigrant train, consisting of ten cars of stock, immigrants' effects, and two coaches crowded with immigrants, arrived in shortly after passengers went out, and went on west as soon as the conductors received orders. None got off here.

A RABBIT CITY girl the other day insisted on throwing one of her shoes after a newly married couple. The husband is a total wreck. The doctor has the bride and groom under treatment and a large number of men are watching under the moon for the resumption of the bridegroom.

Mr. WILLIAM VIVIAN has purchased the business of Mr. A. E. Phippen, and will in future conduct it. Mr. Vivian has done some of the most arduous work in the city, and has two equals in the number of his men, as well as in his business ability. He intends to make his work equal to the rising fortunes of the city.

We regret to learn that on Tuesday Mr. High Strike, of Minneapolis, was leading a horse out of the stable it slipped, knocking Steele against the side of the stable with such force that he had three ribs broken and sustained other internal injuries. The doctor pronounced the case a serious one, but hopes are entertained of his recovery.

Great complaints are made by farmers coming into town of the delays occasioned by the cars standing on the crossing at the 15th street bridge. Some teams yesterday were delayed so long that they had to unload and portage loads around the standing cars. This is not as it should be, and we believe there is a law, which should be enforced, which prevents the blocking of highways by cars for more than five minutes.

The French Canadian immigrants referred to yesterday, who had been so badly bedeviled by a fraudulent Yankee immigration agent, left the Ottawa House yesterday, on their way for their homes in the east. Mr. Bennett, immigration agent, made a strong effort to induce them to remain and go west, but they were so disgusted with the treatment they had experienced in Dakota, that only one remained. The circumstance is to be regretted.

There appears to be some dissatisfaction among the separate school ratepayers over the recent election. Some of them claim that, while they recognize the selection of Mr. Kavanagh as a judicious one and likely to give satisfaction, there was actually no vacancy, as Mr. O'Flynn, the oldest member of the Board had not resigned. Mr. O'Flynn has no particular ambition to retain the office, but it is held that it would have been better to have awaited his action in event of any question as to the legality of the election.

By persons of artistic tastes the advent of Mrs. Jarley's inimitable exhibition will be hailed with unalloyed delight. As an incentive to classic research the entertainment stands unrivalled and to those who cultivate the fine arts, it is considered by the first schools of painting and sculpture to be indispensable. Students of history and poetry are charmed beyond measure with the thought, that the hero or the heroine that has been for years an ideal conception becomes a reality before their eyes and with ecstatic wonder they gaze on the materialization of some life long fantasy. For the diversion of those whose tastes are lighter, a beautiful tableaux will be presented and some musical selections of high merit will be rendered.

Strangers in the City.

GRAND VIEW.—C. E. Grundy, Dr. W. J. Hin, Mrs. C. H. Drake, A. C. Perry, Winnipeg.

GRAND CENTRAL.—G. R. Burton, Walsley, Archie McDunn, Lewis Thomas; J. S. Armstrong, Minnedosa; N. T. Morton; J. Grover, Toronto; W. Brown, J. Martin, Winnipeg.

N. W. TERRITORIES.

Agricultural and Mineral Resources of British Columbia.

Interesting Evidence by Dr. Dawson, of the Geological Bureau.

Dr. Dawson, who was examined before the Parliamentary committee on immigration at Ottawa the other day, said the arable portion of the Northwest Territories was somewhat limited, the best agricultural region appearing to be in the region of the Fraser river, and on account of the atmosphere irrigation was necessary for the successful raising of crops. On the higher plateaus of the interior early summer frosts were apt to occur, which was of course, a drawback to farmers. The valleys were very fertile, grass grew luxuriantly and were well adapted for cattle-raising. The coast region was not so liable to drought or early frosts. Vancouver's Island contained about 100,000 acres of agricultural land, of which 500,000 acres were well adapted for agricultural purposes; about 10,000 acres of which were under cultivation. Victoria Charlotte Island contained 7,000 acres, both of it and Vancouver Island were largely covered with dense forests. The timber was excellent and all portions of the Province were well supplied. The climate of Vancouver's and Victoria's Islands was mild and with very light snow in the winter, lasting only for a short time. Gold was universally distributed over the main land of British Columbia. Almost every river showed gold specimens. From 1858 to 1872 over \$10,000,000 in gold was exported, this, of course, being an approximate estimate. The Chinese taking away about one-third of this. The export of gold was decreasing from the fact that placer diggings were being worked and these are depreciating in value, owing also to want of transportation facilities. Stamping and crushing machinery has not yet been employed to any extent. The number of miners employed when he was there in 1872 was 2,940, which gave a return of about \$655 per man, and of course the mines then could be worked only for half of the year. The want of transportation facilities was the greatest obstacle in the development of the mines in that country. As regards coal, true bituminous was found on Vancouver's Island and along the coast of the main land. It was also found by experiments made by Americans that it was an excellent quality for steam producing purposes. He found that one-fifth of the coal used in San Francisco came from the Naamans coal fields, and sold in San Francisco for \$3 per ton, the cost of transportation being from \$2.25 to \$3 per ton. In the Peace River country was considerable agricultural soil, being like that of the Red River district. There was considerable prairie land in this district, and good crops had been raised. Coal was found in extensive beds and of good quality.

Color Notions.

An English lady writes: "I think our English color notions are taking a turn for the better. The melancholy, saturnine greens and yellows of a season or two past have almost disappeared, and the dark shade of red so much seen now is perfect in its way. Brunettes should be thankful for it, as well as for the beautiful gold color, which was seldom seen in dresses until two or three years ago. Brunettes can wear it too if they do not incline to yellowness. I noticed a superb blonde at a recent dinner venturing to wear a gold brocade a shade darker than her hair, and relieved with golden-brown velvet bog-nipples. The effect justified the hairdresser's experiment."

ARRIVALS. W. M. Scott of the firm of Scott & Palsley just returned from Eastern markets, completing spring purchases, he has brought with him in great expense, a large stock of choice goods such as Black & Colored Silks, Brocade Bastes, Red and Spanish Lace, jewelry ornaments, Lace & Silk, Thread, Ribbons, fine cotton & Lisle Thread, Hosiery, and a host of other goods. Ladies are invited to inspect our stock.

NOTICE TO THE WORKING MEN, FARMERS, AND Immigrants.

If any of the above class of men want work or information as to the best country, or about buying their Horses, Harness, Oxen, etc., or about their supplies, let them go to the HARRIS HOUSE, 6th Street, and Pacific Avenue.

The Farmers at this house club together and buy in quantities, this system they can purchase at ten per cent less than if they bought in single purchases.

Mechanics, by stopping at this House, are sure of work. Proprietor has the hiring of a large number of men for the West. Laborers can get any information regarding work they want. You can also get, by stopping at the Harris House, good Spring Beds, and everything clean and comfortable. Our charges are One Dollar per day.

Contractors requiring men of any description please call on

HARRIS HOUSE

Corner of Sixth Street and Pacific Avenue.
